

# HOSTING HEART TO HEART 2019

JULY 21-25, 2019

## HOSTING REQUIREMENTS

**Sleeping Arrangements:** We ask that you provide a comfortable place to sleep for two or more participants for the four nights of their stay.

**Language:** The participants staying with you will be both Jewish and Palestinian Israelis. Our participants' English language abilities vary. We will do our best to match their language ability with yours. In the past, communication with hosts who speak neither Arabic or Hebrew has not been a challenge.

**Transportation:** Hosts must be able to transport their participants to and from their drop-off locations at the beginning and end of each day. This can mean driving them, accompanying them on the TTC, or walking with them if appropriate. We are able to work with you if one or two drop-offs are problematic for you, but we have limited abilities to find alternative transportation for participants. You must also be able to transport participants' luggage, unless otherwise specified.

**Meals:** Hosts provide participants with breakfast for the four mornings they will spend with you, dinner on the two free evenings, and a packed lunch on each day of programming.

**Entertainment:** We ask that our hosts make an effort to provide fun and interesting teenager appropriate entertainment on free evenings. This might mean a trip into the city to do some site-seeing activities together, or it might mean going out for dinner! Our participants greatly appreciate this time spent together and the opportunity to explore the local culture.

**SAMPLE ITINERARY** - This is a mock itinerary to give you a feel for the week. Exact locations and times will be provided to hosts once selected.
